Mr. Charles Wulfin
Program Director
Radio Station WPRU
Princeton, New Jersey

Dear Charlie:

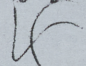

Sorry I didn't get to this sooner, but I've been through an extremely hectic week and a half following the regular exam period. I've started doing a sports show nightly on WELI here in town which took some time to get set up, and then we had a running battle with the Yale Christian Association and the Southern New England Telephone Company as we tried to broadcast four addresses by one Bishop Neill, who is coming to Princeton later this month. Add a couple of basketball games and other things to that and the sum total is simply mayhem. I haven't bought any books for this new term yet—it began a week ago.

Enclosed is our present log. It is poor, and I hope to change it very soon. Don't make the mistake of having the times on the log all printed up. That way you have absolutely no flexibility, the way we did it. And that scheduled announcer-engineer column is pretty useless as far as we are concerned, too. The rest of it will probably stand when we order new logs, with only minor changes.

Glad to hear that you will be contributing 1:30 worth of chain breaks to Godfrey this summer. I'm still a bit undecided as to where I want to work.

What are WPRU's plans for broadcasting the Yale-Princeton game up here on the 22nd? If you are planning to carry it perhaps we could work something out along the lines suggested at the Ivy conference last year. I might suggest that one sportscaster from each station work the game. We are now feeding two other stations, and feeding one more would certainly be no strain. Even if you don't broadcast, come on up, and I can get you a press seat easily enough.

Cordially yours,

Howard Eaton, Jr.
Program Director
